12th standard • 2019 - 2020

EXPERIENCE (TRAINING)

Python Developer

TOPS TECHNOLOGIES - Rajkot • Aug 2023 - Nov 2023

Django developer

TOPS TECHNOLOGIES - Rajkot • Dec 2023 - April 2024

PROJECT

I have successfully developed a dynamic web application using Python and the Django framework. This project showcases my proficiency in creating responsive user interfaces with HTML templates designed using Bootstrap. I have implemented essential features such as secure user authentication (login and signup), two factor authentication with OTP verification, seamless email communication, and integration of mapping functionalities. This project demonstrates my ability to build robust and user-friendly web applications while leveraging cutting-edge technologies.
